Features

Inbuilt Control Valve

Direct Blank Fire

Rigid Accumulator (Optional)

Hardox Plate

Proper Weight

High Output - High Profits

High Strength And Durability -
Low Maintenance

High reliability -
Faster Project Completion

More Fuel Efficient -

Save Money

JKS HD ROCK

Major Advantages

JKS Series is a proven winner in the premium breaker market. Its optimal weight-to-size ratio provides the highest impact power in its class. Its durable components complement its state-of-the-art technology.

Silenced Bracket : Minimized welding provide durability against external force.

Improves durability and maximum productivity enabled by Direct-blank Firing and Total Power Control(TPC) System on all model above JKS 140.

Increased diameter of Through bolts and Chisel Pin for improved durability

Improved In/Out Ports by using the latest adaptor. Prevents potentially dangerous leak and breakage.

Technical Specification

Model	Unit	JKS 20HD	JKS 35HD	JKS 40HD	JKS 43HD	JKS 50HD	JKS 230HD	JKS 450HD	JKS 550HD
Total Weight	KG	200	300	360	380	850	1750	2500	3000
Operating Pressure	Kg/CM	120-150	120-150	120-150	120-150	150 -170	160 - 180	180 - 200	180 - 200
